

# Pieter Wattel

I do music projects, programming, conflict resolution,  
trad music sessions and meditation

## about

I have a curious and open character, and enjoy spending time and connecting with new people and new environments. I enjoy and support a sense of community, wherever I am.

I consider myself to be between creative/associative thinking, and analytical thinking, which allows me to solve challenges that require a combination of strategy and flexibility. I like working in a team.

I thrive in meaningful, everchanging projects. I love to create order out of chaos. When I have the opportunity to work on projects that fulfill my need for meaning and community, I have great amounts of energy and dedication.
